[Testimonials - Rotating]

“We haven’t seen such quality in fresher hiring before — exceptional pool and coordination.”

— Hiring Manager, Anand Rathi

“We highly appreciate the streamlined Tier-2 delivery model. It helped us meet our volume hiring goals faster than expected.”

— Hiring Team, One of the Big4 Firms

“We truly appreciated the extra efforts. Your team saved us significant time and cost while delivering Tier-1 quality faster than any agency.”

— HR Team, Kotak Mahindra Bank

“I’ve never seen such high-quality fresher talent from any vendor.”

— Ansh, HR at Exotel

“We appreciate the coordination and quality. We will continue to trust you for all our fresher hiring needs.”

— Hiring Team, LeadSquared

“We’re very happy with the quality of candidates shared and would love to receive more profiles from you for our future requirements.”

— Hiring Manager, Hyperfin

“We are extremely satisfied with the coordination and candidate quality. The talent you delivered truly impressed us.”

— Hiring Team, SalesDuo

“The quality and coordination were excellent. We’d love to see an even faster turnaround on profiles next time.”

— Hiring Team, Neurealm

Need for NxtWave Edge:

India’s First National Engineering Hiring Standard

[Vertically stacked square cards with 1st and 3rd cards left aligned and 2nd card right aligned]

Because online evaluation can’t be trusted anymore

Cheating and test inflation have made digital assessments unreliable.

With Edge: Reliable assessments built on proven offline integrity.

Because 'tier' doesn't tell you who can actually code

Readiness varies drastically even inside top NIRF campuses.

With Edge: Consistent evaluation of engineering talent across campuses.

Because hiring teams don't need more resumes — they need answers

Screening hundreds of profiles slows teams without improving quality.

With Edge: A clear way to identify truly job-ready freshers.
